29 AUG 1986

MEMORANDUM FOR: Director of Logistics

FROM: Edward J. Maloney
Director of Information Technology

SUBJECT: 415 Hz Power for New Headquarters Building

REFERENCE: Meeting between D/OL and D/OIT on 22 Jul 86

1. At the meeting, we recognized that 415Hz power, which is provided by motor generators, is required for the New Headquarters Building and is as yet unfunded. OIT has verified that the minimum number required at Beneficial Occupancy Date (BOD) is 12 415Hz motor generators. Also, OIT has verified that an order placed by the first quarter FY-87 will guarantee delivery by September 1987.

2. We agreed OIT will support this unfunded requirement and recognized that, in the future, uninterrupted power and the requirement of 415Hz power will be viewed no differently by the Office of Logistics, than any utility required to service Agency requirements. Accordingly, the Office of Logistics will plan and budget support of these requirements. Consistent with this, the Office of Information Technology will provide accurate specifications detailing these requirements.

25X1

1. OIT pays.
